Intel® Xeon®
processor
Scalable family

Lenovo

What is Top Choice Portfolio

- Top Choice is a specially selected **set of Lenovo® data center offerings**, configured and priced for small and mid-sized businesses.
- Includes **best-selling** Lenovo® servers, storage, software and services.
- Plug-and-play models. **Simple** to deploy, manage and grow.
- TopChoice buy-prices are the **highly discounted**, reflecting local market conditions.
- Prices are **fixed** for 90 days within one Quarter.
- Controllers are so deeply discount that no special discount is applicable for them, but you can get special discount for options in a BID, if the whole deal exceeds minimum deal threshold.
- Use special Lenovo's channel **incentives** to earn fantastic rewards and prizes selling TopChoice products.

*Please be aware that this guide includes only selected Top Choice portfolio Part Number.

LENOVO'S ISG TOWER SERVERS AT A GLANCE

ThinkSystem ST50 V2

The optimal first server

Compact, affordable, single-socket entry tower optimized for SMB, remote/branch offices, workgroups, departmental groups, and small/home offices.

Technical Specifications

- 4U Tower /Small form-factor tower
- Intel® Xeon® E-2200/2300 processors
- Up to 3x PCIe slots: one x16/x16, one x1/x1, and one x16/x4

Warranty

- 1-3 year customer-replaceable unit and onsite limited warranty

ThinkSystem ST250 V2

Enterprise-quality tower server for remote and branch offices

Ideal server for small-to-medium-sized businesses looking for enterprise-level power in an easily-managed tower form factor.

Technical Specifications

- 4U Tower
- Intel® Xeon® E-2300 processors
- Up to 128GB in 4x DIMM slots
- Up to 16x 2.5-in HS disks

Warranty

- 1-3 year customer-replaceable unit and onsite limited warranty

ThinkSystem ST550

Enterprise performance and flexibility. Compact footprint.

4U tower server that provides the performance and reliability you expect from the data center, delivered in a package optimized for office environments.

Technical Specifications

- 4U rackable Tower
- Up to 2x second gen Intel® Xeon® Platinum processors, up to 125W
- Up to 768GB in 12x DIMM slots using 64GB DIMMs; 2666 and 2933MHz TruDDR4

Warranty

- 1-3 year customer-replaceable unit and onsite limited warranty

ThinkSystem ST650 V2

The optimal first server

Designed to handle a wide range of workloads, such as databases, virtualization and cloud computing, virtual desktop infrastructure (VDI), infrastructure security, systems management, enterprise applications, collaboration/email, streaming media, web, and HPC.

Technical Specifications

- 4U rackable Tower
- Up to 2x 3rd gen Intel® Xeon® Scalable processors, up to 250W
- Up to 8x PCIe 4.0 slots plus 1x PCIe 3.1 slot (with 2x processors)

Warranty

- 1-3 year customer-replaceable unit and onsite limited warranty

Windows Server 2022

Overview

Value Proposition

- ✓ Best Price: Use TopChoice price to achieve cost savings
- ✓ Increased Convenience: Custom image tested and supported by Lenovo

Conversation Starter

- What operating system will you be running on this server?
- Which applications/workloads will this server be running?
- Will this server be installed in a new or existing environment?

How Standalone ROK is delivered?

- ROK licenses are delivered physically **in a Polybag** which include the Media and a license card with the COA
- **Reseller is responsible** to open the Polybag, install the operating system and **attach** the COA on the server before delivering the server to the end customer
- The polybag with Media and COA was shipped **separately** outside of the server box.

Windows Server Licenses ROK – Reseller Option Kit

Microsoft Operating System

- Licensed by number of physical cores.
- 16 cores are included in base license.
- 2-core add-on as needed.

Microsoft Client Access Licenses

Client Access Licenses (CALs) are required for every User (employee) or Device that is connected to the Microsoft Server.

Remote Desktop Services

for Windows Server 2022 require a Windows Server 2022 CAL and a Windows Server 2022 RDS CAL for each user or device

PNs	Description
7S05001RWW	Windows Server 2019 Essentials ROK - MultiLang

Microsoft SQL Server

Provide more value to your clients and add Microsoft SQL Server 2019 to your server quotes. Lenovo offers ROK bundles that combine Windows Server 2022 Standard or Datacenter Edition with SQL Server 2019 Standard Edition using the Server+CAL licensing model.

Customers need to purchase an SQL Server license for each physical server or VM and add Client Access Licenses (CALs) for every User or Device accessing SQL Server or any of its components.

Alternatively, Lenovo also provides standalone SQL Server versions and Core based licensing directly in the Lenovo Data Center Solution Configurator (DCSC) – these SKUs however cannot be stocked and need to be configured with a server.

Apply intelligence across all your data with SQL Server 2019.

Vmware / Virtualization

Overview

Value Proposition

- ✓ Market leader in Software Defined Data Center
- ✓ Solutions that scale small business to large enterprise
- ✓ Time to Value with an automated infrastructure that can provision resources in minutes

Conversation Starter

1. “Will these servers be used for VMware?”

If YES, proceed to question 2.

2. “Does the customer already have the VMware licenses needed for these systems?”

If NO, proceed to question 3.

3. “Can we provide you a quote for the licenses that are needed? We have access to newly discounted VMware licenses through Lenovo that are priced very aggressively!”

If YES, get the bill of materials to the Lenovo team and we'll provide competitive pricing.

Part Numbers

- OEM Perpetual license sold per processor
- Sold by 1, 3 or 5-year support offerings
- 1 PN holds License + Support & Subscription (SnS)
